

THE CASE AGAINST REPUBLICAN FOR SENATE LARRY HOGAN

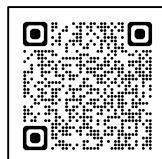

Former Maryland Governor, Larry Hogan, was hand picked by Mitch McConnell to run for U.S. Senate and is endorsed by Donald Trump.

A VOTE FOR HOGAN WOULD MEAN THAT DEMOCRATS LOSE A CRUCIAL SENATE SEAT AND PAVE THE WAY FOR A REPUBLICAN TAKEOVER.

MORE REASONS WHY YOU SHOULD NOT VOTE FOR LARRY HOGAN

- Despite his image as a moderate, when he was governor, LARRY HOGAN VETOED many measures introduced by Democratic lawmakers, including:
 - × Abortion Care – increases the number of abortion providers and allocates funds for safe procedures
 - × “Ban the Box” – requires employers to remove questions about criminal history from job applications
 - × “Time to Care” – requires companies to offer 12 weeks of partially paid medical leave for health issues and 24 weeks for new parents
 - × Background Checks – requires background checks on private rifle and shotgun sales
 - × Minimum Wage – raises the minimum wage to \$15
 - × Mail-in Ballots – allows voters to be notified about mistakes on their ballots and fix them and allows the counting of ballots before election day
 - × Drug Prescription Affordability Board – limits the price of prescription drugs for Maryland citizens
 - × Climate Change Mitigation Bill – sets a goal for Maryland to reduce greenhouse gasses by 60% by 2031
 - × The Blueprint for Maryland's Future – significantly increases funding for Education statewide
- All vetoes were overridden by the Democratic legislators, except for the Mail-in Ballot bill; a Maryland judge ruled that ballots could be counted prior to election day.
- Canceled a planned \$2.9 billion public rail line through Baltimore then used the money to fund infrastructure projects near properties owned by his real estate investment firm.
- Purchased Covid tests kits for \$11.9 million dollars from South Korea that did not work. Then spent \$2.5 million more on kits that did work when he could have purchased domestic test kits more cheaply.
- Created a school voucher program that took money away from public schools to fund private schools, including \$4.75 million worth of vouchers to students who were already enrolled in private schools.
